PREPARING FOR ECONTENTPLUS III
Bratislava, 21-22 September 2006
Educational Content

Ludovit MOLNÁR
Slovak University of Technology
Faculty of Informatics and Information Technology
Dean of the Faculty of Informatics & Information Technologies

Born in Komjatice , Slovakia on October 11, 1940. Graduated from Commenius University – mathematics and physics, in 1962.

After the graduation he started his professional career in the field of Computer Science, as one of the pioneers in Slovakia in this field. In the early 70s he was participating on a Computer science curricula development for university education, which later passed through IEE (Institute of Electrical Engineers in London) international accreditation as one of the first in CEEC.

In research he has been working in a field program system construction, artificial intelligence and knowledge based programming. He was head of several projects for industry.

He has also participated on several international projects for European Commission and UNESCO.

At the Slovak University of Technology in Bratislava, Slovakia he has been working in different positions. Currently he is the dean of the Faculty of Informatics and Information Technologies.
